The East African Economic Bloc continues to be the most vibrant in Africa and economic indicators show that real GDP growth in the region is the highest in Africa.

With 5 landlocked states, road borne commerce is critical in the region; Over 70% of all the trade in the region is carried on a route which stretches from the Port of Mombasa to the Eastern part of the Democratic Republic of Congo through Uganda and Rwanda. In anticipation of the African Continental Free Trade Agreement, China, the World Bank, the African Development Bank and private businesses have invested over 5 billion US Dollars in developing this trade corridor. Most of this investment is driven by the sound macroeconomics in East Africa and the conducive business environment.
